3. **Insert Micro-SD card (optional)**

Insert SD card into the phone as shown.
4. **Remount battery cover**

Install the battery correctly then press the seal cover tightly. Finally fix the back cover and lock.
5. Charge the Battery

Please charge for 5-6 hours before initial use.
6、Turn the device on and off

To turn the device on and off, press and hold the power button for a few seconds.

ROCK V40 DESCRIPTIONS
Safety Instructions
◆ You have just acquired a ROCK V40 that meets the IP67 standard. To ensure its optimal use and waterproofing, make sure that all the caps over openings as well as the battery cover are closed properly.
◆ Do not open the device's cover if it is in water or a very humid environment, e.g. a pool or bathroom.
◆ The rubber seal fixed on the back cover is an important component of the device. Take care when opening and closing the back cover to avoid damaging the rubber seal. Ensure that the seal is free from any debris, such as sand or dust, to avoid damaging the device.
◆ The back cover and the caps over openings may become loose from falling or shocks. Ensure that all the covers are properly aligned and perfectly closed.
◆ If the device has been submerged in water or the microphone or speaker is wet, the sound may not be clear during a call. Ensure that the microphone or speaker is clean and dry by wiping it with a dry cloth.

◆ If the device gets wet, dry it thoroughly with a soft, clean cloth.

◆ The waterproofness of the device may result in slight vibrations in certain conditions. Such vibrations, for example when the volume is turned up high, are entirely normal and do not affect the performance of the device.

◆ Do not disassemble or use any equipment which may damage the waterproof film of the microphone or speakers.

◆ As temperatures fluctuate, an increase or decrease in pressure may occur and impact audio quality. In this case, open the caps in order to release the air.
Battery usage precautions

Use with a suitable charger
Do not throw into fire
Do not short-circuit
Do not heat above 60°C/140°F
Recycle according to the standards in force

Warning
◆ Observe all the safety instructions and regulations on using your device when driving.
◆ Small parts may cause choking.
◆ Your phone can produce a loud sound.
◆ Do not rely on your phone for emergency communications.
◆ Do not use at gas stations.
◆ Avoid contact with magnetic fields.
◆ Switch off in hospitals and other medical facilities when requested.
◆ Switch off in aircraft and airports when requested.
◆ Switch off when near explosive materials or liquids. Avoid extreme temperatures.
◆ Do not store your device in extremely hot or cold places.
◆ Do not disassemble your phone.
◆ Avoid knocking or damaging your device.
◆ Avoid using the connector for multiple functions and do not let the battery terminals touch conductive elements, such as metal or liquids.
◆ Stop using your device if part of the device is cracked, broken or heats up.
◆ Do not turn on the device or use it if the battery compartment is exposed to air.
◆ Do not let young children or animals chew or lick the device.
◆ Do not press the device into eyes, ears or any other body part, or put it in your mouth.
◆ Do not use the flash close to the eyes of people or animals.
◆ Do not keep your device near or inside radiators, microwave ovens, kitchen appliances or high pressure containers.
◆ Do not use your device outside during a thunderstorm.
◆ Please use only authentic ERIFON accessories with this phone, and do not use the battery with any other type of phone.
At full volume, extended use of the mobile audio player may damage the user's hearing.

Recommendations for reducing the user's exposure to radiation
◆ Use your mobile phone in good signal reception conditions, to reduce the amount of radiation received (especially in underground car parks, on train journeys or in a car, etc.).
◆ Use your phone when it receives the best signal (e.g.: Maximum number of signal strength bars).
◆ Use a hands-free kit.
During calls, keep the phone away from the abdomen of pregnant women and the lower abdomen of teenagers.
Compliance

◆ This device complies with the essential requirements and other provisions contained in Directive 1999/5/EC. The Declaration of Conformity for your telephone is available on the website: www.insmat.fi

CE 0700

◆ This device complies with the guidelines relative to exposure to radio frequency electromagnetic fields when held against the head or at a minimum distance of 15mm from the body. The SAR limit defined under the ICNIRP guidelines is 2.0 W/kg averaged over the 10 g of tissue absorbing the most signal.

Maximum values for this model:

0.798 W/Kg for the Head
1.161 W/Kg for the body

The Product complies with the ROHS 2011 / 65 / EU Standard.
