|          | ![Menu Key](image) **Menu key** | Press to open the menu on an active screen. |
GETTING STARTED WITH YOUR MOBILE PHONE

Installing the SIM Card

1. Remove the battery cover carefully. Use a screwdriver to loosen the screws.
2. Insert the SIM card as shown in the diagram and close the battery door.
3. Use the Screwdriver carefully and do not overwind the screws.

Note: When inserting the SIM card, ensure that the golden contact faces downward. Card slot 1 supports WCDMA and GSM networks while card slot 2 supports only GSM networks. If you want to use a SIM card supporting WCDMA networks on your phone, insert the card in card slot 1 for better services.

USING A MICROSD CARD

Installing the microSD Card

1. Remove the battery cover carefully. Use a screwdriver to loosen the screws.
2. Insert the microSD card as shown in the diagram and close the battery door.
3. Use the Screwdriver carefully and do not overwind the screws.

Note: When inserting the microSD card, make sure that the gold contacts face towards the front of the phone.

USING THE MICROSD CARD AS USB MASS STORAGE

To transfer all your favorite music and pictures from your PC onto your mobile phone’s microSD card, set the microSD card as USB mass storage.

1. Connect your mobile phone to your PC with the USB cable.
2. Touch Mount microSD card to your computer in the dialog box that opens to confirm that you want to transfer files. Your PC will detect the microSD card as a removable disk. You can now transfer files from your PC to your microSD card.
USING THE ONSCREEN KEYBOARD

Displaying the Keyboard Panel

Open the keyboard as follows: Touch the space where you want to write text to display the keyboard. Press ← to hide the keyboard.

Using the Android Keyboard

1. Touch to change from uppercase to lowercase.
2. Touch to change from text mode to symbol/number mode. Touch again to change back.
3. Touch to turn on voice input.
4. Touch to insert a space in your text.
5. Touch to delete a character to the left of the cursor. Touch and hold to delete all characters to the left of the cursor.
Taking Photos and Recording Videos

The camera is a combination of camera and camcorder that you can use to shoot and share pictures and videos.

Opening Your Camera

1. Touch \( \mathcal{H} \) > Camera to open the camera. The camera opens in landscape mode, ready to take a picture or shoot a video.
2. Press \( \rightarrow \) on the picture capture screen to close the camera.

Capture Screen

On the capture screen, touch the screen to show the zoom in or out controls.

1. Touch to open the settings panel.
2. Touch to take a photo or shoot a video.
3. Touch to shoot videos (camcorder mode) or take photos (camera mode).
4. Thumbnail of last photo. Touch to preview the photos or videos.
Taking a Photo

1. Open your camera and switch to the camera mode.
2. If necessary, open the settings panel to change the camera settings. The preview changes as you change the settings.
3. Compose your photo within the photo capture screen.
4. Touch and hold 📸 to take your photo.

Viewing Your Photos

1. After taking a photo, a thumbnail of the photo you have just taken is shown in the bottom right corner of the Capture screen. Touch the thumbnail to view it.
2. Touch the onscreen button to do any of the following:
   • Touch Delete to delete the photo.
   • Touch Share to send the photo in a message or post it online.
   • Touch More > Set as to set the photo as a wallpaper or a contact icon.
3. If you want to view more photos, touch the screen, and then flick right or left.

Making a Video

1. Open the camera, and then switch to camcorder mode.
2. If necessary, open the settings panel to change the camcorder settings.
3. Frame the scene which you want to start your video.
4. Touch 🎥 to start recording a video. The camcorder starts shooting the video.
5. Touch 🎥 to stop shooting. You can shoot another video or preview your videos.
Creating a Google Account

If you do not have a Google account, you can create one:

1. After reading the setup information, touch next.
2. Touch Create.
3. Enter a first name, last name, and user name for your Google account, and then touch Next. The mobile phone will connect to the Google server to check whether the username is available. If the username you entered is already in use, you will be prompted to choose another one or select one from a list.
4. Enter and confirm your Google account password.
5. Select a security question from the drop down menu, and then enter the answer.
6. Touch Create.
7. When the Google Terms of Service screen appears, touch I agree, Next.
8. Enter the characters that appear on the screen, and then touch Next.

Using Gmail

Gmail is Google’s web-based email service. When you first set up your phone, you may have configured it to use an existing Gmail account or create a new account. The first time you open the Gmail application on your phone; your Inbox will contain the messages from your Gmail account on the web.

Opening Gmail

Touch ✉ > Gmail. The Inbox mail list appears. Any emails you decide to keep on your mobile phone will go to your Inbox folder.
Switching Between Accounts

1. In the mail list, press Accounts, and then touch Accounts.
2. Touch the account that contains the email you want to read.

Creating and Sending an Email

1. In the mail list, press Accounts, and then touch Compose.
2. Enter the message recipient’s email address in the “To” field. If you are sending the email to several recipients, separate the email addresses with commas. You can add as many message recipients as you want. If you want to send a copy (Cc) or a blind copy (Bcc) of the email to other recipients, press Accounts, and then touch Add Cc/Bcc.
3. Enter the email subject and write your message. If you want to add a picture attachment, press, and then touch Attach to select the picture you want to attach.
4. After composing your email, touch Send.

Replying To or Forwarding an Email

1. In the mail list, touch the email that you want to reply to or forward, and then touch on the upper right.
2. Touch Reply, Reply all, or Forward.
3. Do one of the following:
   • If you selected Reply or Reply all, enter your message.
   • If you selected Forward, specify the message recipients and add any additional text you want to include with the forwarded message.
4. Touch Send.
Using Market

Android Market provides direct access to applications and games which you can download and install on your phone.

Opening Market

1. Touch 📲 > Market.
2. When you open Market for the first time, the Android Market Terms of Service window will appear. Touch Accept to continue.

Searching for Applications

There are a few different ways to find applications on the Market home screen, including:

- **Featured applications**: Scroll horizontally to view more.
- **List of applications by category**: Includes subcategories, which you can sort by popularity.
- **List of games**.
- **Search function**.
- **Downloads**:

Installing an Application

*If you want to install a non-Market application, touch 📲 > Settings > Applications, and then select the Unknown sources check box to allow installation of the non-Market application.*

1. In the Market, touch Apps.
2. Touch a category, and then touch the item you want to download.
3. On the item details screen, read more about the application, including its cost, overall rating, and user comments. If you scroll down to the Developer Info section, you can see other applications from the same developer or link to the
developer's website.

4. To install the item, touch **Free** and then touch **OK**, whichever is displayed.

5. To check the progress of a download, open the notification panel. Most applications are installed within seconds. To stop an item from downloading, touch **Cancel**.

6. After the application has been downloaded and installed on your mobile phone, the content download icon appears in the notification bar.

### Uninstalling an Application

1. On the **Market** screen, touch **My apps**.
2. Touch the application you want to uninstall, and then touch **Uninstall**.
3. When prompted, touch **OK** to remove the application from your mobile phone.
4. Choose the reason for removing the application, and then touch **OK**.

### SYNCHRONIZING

Some applications on your mobile phone give you access to the same personal information that you can add, view, and edit on your computer. If you add, change, or delete your information in any of these applications on the web, the updated information also appears on your mobile phone.

This is made possible through over-the-air data synchronization. The process occurs in the background and does not interfere with use of your mobile phone. When your phone is synchronizing, a data synchronization icon will be shown in the notification bar.
Scope of Delivery:
